

DATA SHEET

FLARING TOOL DRILL BIT SET

DESCRIPTION

Drill bit for hand drill application, for flaring copper pipes for cooling circuits.

APPLICATION

Friction heat moulding of the tubes for easy and comfortable fitting of SAE type brass fittings.

ADVANTAGES

This set of drills allows much faster flaring than traditional tools.

MATERIAL

Drill bits made of hardened steel of high strength and durability.

DRILL BIT SIZES

This set is composed of the following drill bit sizes:

1/4 3/8 1/2 5/8 3/4

ARTICLE CODE

4646530000

PRESENTATION

The set is packed in a plastic case with threaded cap.

RECOMMENDATION

It is highly recommended to use these drills with hand drills of 1800 RPM and 500 W power. For cordless machines, it is recommended to use 18W drills.
