

DATA SHEET

EXPANDER TOOL DRILL BIT SET

DESCRIPTION

Drill tip for hand drill application, which allows for the flaring of copper pipes for cooling circuits.

APPLICATION

Friction heat moulding of the tubes to adapt them easily and comfortably to a "female" type fitting.

ADVANTAGES

This set of drills allows much faster flaring than traditional tools.

MATERIAL

Drill bits made of hardened steel of high strength and durability.

DRILL BIT SIZES

This set is composed of the following drill bit sizes:

1/4 3/8 1/2 5/8 3/4 7/8

ARTICLE CODE

4646540000

PRESENTATION

The set is packed in a plastic case with threaded cap.

RECOMMENDATION

It is highly recommended to use these drills with hand drills of 1800 RPM and 500 W power. For cordless machines, it is recommended to use 18W drills.
